

Jesse Goslen pledges the following:

"I pledge to hold quarterly public meetings open to all residents of Franklin and Vance counties so that you can ask questions, get answers, make suggestions, share your concerns, and hear first-hand what I've been doing to promote District 7's interests."

"I will fight to reverse extreme MAGA legislation passed by Republicans in the General Assembly, such as:

- SB 749: Threatens our democracy by changing the working structure of our Boards of Elections to favor the party in power
- SB 20: Puts needless, even dangerous, restrictions on women's access to healthcare
- HB 951: Opens the door to environmental destruction and pollution of our air and water

"I will work with Vance's and Franklin County's elected officials to ensure that my efforts in the House support the actual needs of the people in our counties, such as:

- Broadband expansion – Internet to every home and business
- Road projects – Better control of traffic; enhanced safety
- Adequate sources of water and other infrastructure far into the future
- Remediation of our "healthcare desert"
